## Quality of Life Questionnaire for Young, Active Patients with Hip Problems

### Instructions:

- These questions ask about the problems you may be experiencing in your hip, how these problems affect your life, and the emotions you may feel because of these problems.
- Please answer each question with respect to the current status, function, circumstances and beliefs related to your hip.
- Consider the last **month**.
- The questions are formatted so that you can indicate the severity of the problem by marking the line below the question.

### Please note:

Please mark the line with a slash at the point which most closely represents your situation.

- If you put a mark on the far **left**, it means that you **feel you are significantly impaired**.  
*For example:*

Significantly impaired /————— No problems at all

- If you put a mark on the far **right**, it means that you **do not think that you have any problems** with your hip.  
*For example:*

Significantly impaired ————— / No problems at all

If the mark is placed in the middle of the line, this indicates that you are moderately disabled, or in other words, between the extremes of ‘significantly impaired’ and ‘no problems at all’. It is important to put your mark at either end of the line if the extreme descriptions accurately reflect your situation.

If the question asks about something that you do not experience, please mark the option:

**I do not do this action in my activities**, where this is appropriate.
